

to build websites which are clean, logical, beautiful, adaptable, and show up well in search engines.

**PLANET MEDIA
ENVIRONMENTAL
SUSTAINABILITY
POLICY**

A greener workplace can mean a lighter ecological footprint, a healthier and more productive place to work, and good news for the bottom line.

Like many other businesses, we have the choice to limit our effect on the environment. We choose to make a difference, and here are a few ways that we are doing it.

Telecommuting

Use low impact transport for business travel including ride sharing and public transportation.

Energy Consumption

Keep energy consumption low by using LED lights, reducing heat and air conditioning.

Powering Down

Setting computers and monitors to energy-saving mode and shut them off when leaving for the day.

Community Volunteering

A core value. Neighborhood tree planting, clean up trash at parks and rivers and working at community gardens.

Environmental Legislation

Comply with all relevant environmental laws, regulations and requirements.

Digitization

PDF invoices, proposals and keeping files on computers in digital format for paperless document sharing.

Reduce Travel

Avoid unnecessary travel by making use of instant messaging, video conferencing, phone and email.

Recycling

Repurpose or recycle paper waste including fax, envelopes and junk mail.

Go Green

Using green materials by using 100% recycled pens, pencils and office supplies.
